H O M E E L E V A T O R S

Decades of Excellence in
World-Class Elevator Technology

IND | USA

Altenmo Home Elevators are designed to maximize the independence of individuals with reduced mobility because we believe that every person matters

Humanity

Altenmo Home Elevators are designed to maximize the independence of individuals with reduced mobility because we believe that every person matters

Price and Performance

Our goal is to provide our customers with high-quality, outstanding home elevators at attractive prices

Elegant

Altenmo impresses with its modern design and high quality manufacture

Safety

To ensure safety, our integrated platform is equipped with lights that have an emergency power supply, guaranteeing users safe access to the ground floor during power failures

Comfort

Our elevators ensure smooth, silent, and vibration-free journey from start to finish with our Patented Gearless Technology.

Robust

Designed for Indoor and Outdoor use with optimal protection against corrosion

Reliability

A global home elevator designed for the Indian market, emphasizing durability and low maintenance with the use of superior materials and finishes

**DESIGNED
TO MATCH
YOUR STYLE**

Experience the ultimate convenience with a truly universal elevator that enhances your home, making your life simpler, more luxurious, and magical

ECO

(Low Energy Consumption)

DESIGNED WITH EFFICIENCY

A truly Universal Home Elevator for All Styles and Budget

Altenmo Home Elevators – A global home elevator designed for the Indian market, focusing on sustainability with a commitment to durability, low maintenance, and the use of premium materials and finishes

Panoramic Shaft

Altenmo's unique design encapsulates a mechanism which can be attached to load-bearing walls and slabs, allowing for a lighter design with full-height panoramic glazing. The slim drive tower ensures minimal space requirements

Compact Mechanics

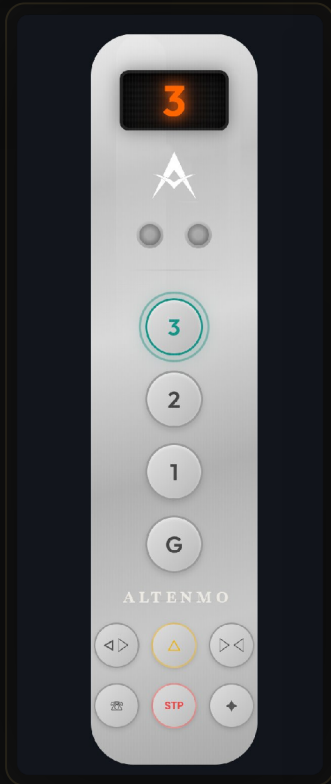

The installation of Altenmo Home Elevator's mechanical components (patent pending) optimizes volume and maximizes space within the elevator car. By eliminating the need for a counterweight and machine room, the assembly process is simplified, and the compact electric panel design offers additional space for individuals with reduced mobility

INTELLIGENT INTERFACES

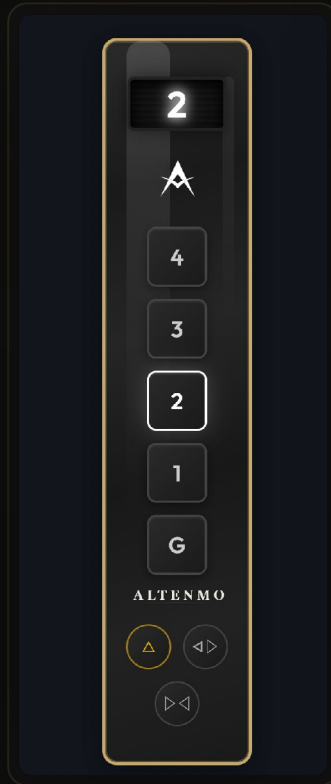

Precision-Crafted Touch Panels for Every Aesthetic

Every Altenmo elevator features a bespoke control interface — designed with premium materials, responsive touch technology, and intuitive layouts.
